

Tantalex Lithium Resources Corp

A Lithium, Tin and Tantalum exploration and development company in Africa

Company Overview

Tantalex Lithium Resources Corp is a Lithium, Tin and Tantalum exploration and development company developing near term production assets and exploring a highly prospective hard rock lithium asset in the world class Manono district. We are currently focused on delivering our 3 projects.

“The Manono Lithium Tailings Project” with a proven resource of 12,09M tonnes at 0,64% Li₂O at Feasibility Study stage with an objective to produce 100,000 tons of Spodumene concentrate (SC6) at 6% Li₂O per year starting in January 2025.

“The TiTan Tin and Tantalum Concentrate Plant” in construction and scheduled for commissioning in April 2023 aimed to produce 1400mt of Sn concentrate and 240mt of Ta concentrate per year

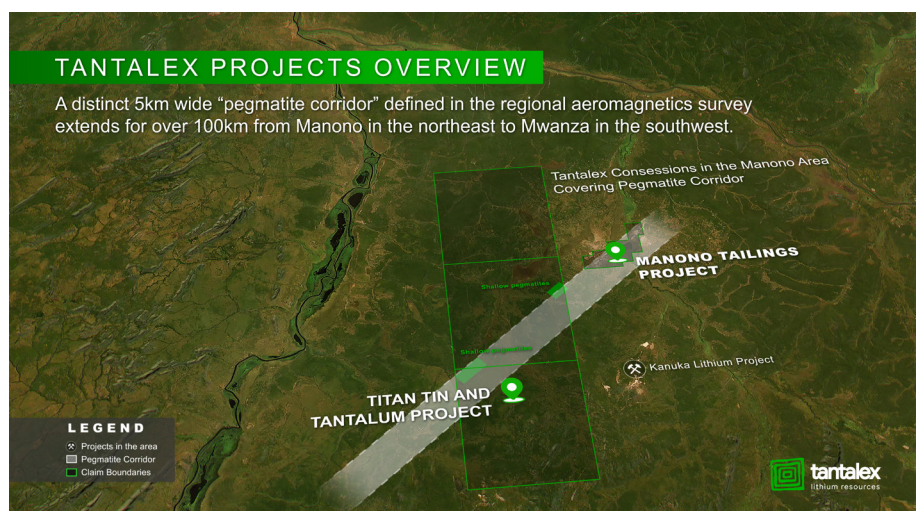

“The Lithium Pegmatite Corridor Exploration Project” with bluesky discovery potential immediately downstrike from the world’s largest undeveloped hard rock lithium resource, 400 million tonnes grading 1.65% Li₂O

Investment Highlights

- An experienced and goal orientated Board of Directors with a proven record of creating value for shareholders
- A tried and tested development team with experience in the Manono, DRC region
- Near term revenue generator with TiTan Sn/Ta Concentrate Plant
- Highly favorable economic outlook for spodumene concentrate suppliers
- Speed to Market on the Lithium Tailings project: resource is shovel ready, already crushed, PEA due in May and FS to follow shortly after in July 2023.
- Discovery Potential for hard rock spodumene on the Pegmatite Corridor is highly likely: LCT pegmatites identified and drilling has started in Dec 2022.
- Low carbon emission production in a market that is transitioning from fossil fuels to electrification where Lithium, Tin and Tantalum play a major role

**GREAT PEOPLE,
GREAT ASSETS,
BRIGHT FUTURE**

Lithium, Tin, Tantalum

DRC

CSE: TTX, FSE: DW8,
OTCQB: TTLXF

DRC:

- The assets find themselves in the province of Tanganyika, Democratic Republic of Congo in Manono
- The Manono area has a significant history with regards to the mining and exploration of tin, tantalite and niobium

Directors & Officers

Hadley Natus, *Chairman of the Board*

Simon Collins, *Director*

Yves Kabongo, *Director*

Eric Allard, *CEO*

Matthew Botell, *Director*

Hannes Miller, *COO*

Klaus Eckhof, *Director*

Luisa Moreno, *Director*

Kyle Appleby, *CFO*
